

*"Honored Artist of Russia Irena Makoveeva
"Mosya and Tusik" Dry point, A/P, 2007, 11" x13"*

FROM RUSSIA WITH ART

gallery

Press release

Some of Russia's best artists have focused their creative energy mastering printmaking, particularly etching – and the results are breathtaking, but hard to find in this country. From Russia With Art Gallery in Cambridge, MA is helping to change that, with an exhibition of etchings and other prints by some of Russia's leading artists. The show will feature work by Stanislav Nikireev, Alexander Vetrov, Vladimir Vorobyov, and Irena Makoveeva, well-known artists in the Russian and international art world. **People's Artist of Russia Stanislav Nikireev (1932-2007)**, a Member of Russian Academy of Art, was one of the most remarkable Masters of modern Russian Fine Arts. Experts consider his incredibly detailed works as a unique phenomenon in current landscape art and etching technique, to be compared only with the legacy of old Masters, such as Albrecht Durer, Rembrandt van Rijn and especially Pieter Brueghel the Elder.

Gallery is also featuring rarely seen original works on paper (pastels, mixed media, drawings) by an important Italian-American modernist August Mosca (1909-2002,) created by the artist in 1940s-1970s .

In addition, rarely seen in the United States etchings, aquatints and dry points by "Honored Artists of Russia" Alexander Vetrov, Vladimir Vorobyov and Irena Makoveeva will also be presented as part of these exhibitions.

The exhibitions are curated by Olesya and Jerry Koenig of Cambridge, MA. Olesya and Jerry are Russian art experts, collectors and owners of From Russia With Art Gallery in Cambridge. For the past 9 years the gallery has maintained an internet presence and features
