## VLADIMIR VOLOSOV

Vladimir Volosov was born in 1937 in St. Petersburg. Doctor of Science, Professor, winner of the State Prize, author of more than 100 scientific articles, in 1990 he has left scientific career and completely devoted himself to painting. "One can find, though rarely, people for whom to live one life is not enough. And they manage to live several lives within the same God-given amount of time..." Main directions in painting for the Artist are **lyrical realism and abstract compositions**. Volosov's works are at the galleries and private collections of Russia, USA, Finland, Sweden, Germany, Israel and Japan.

*"I wish Vladimir Volosov to remain himself - contrary to a fashion, not listening "wise" advice.*

*The bravery is necessary, for, having selected destiny of the artist at already mature age, to remain faithful to yourself"*

said the Doctor of art history, professor, Member of International Association of Critics M. German.
